

PRESS RELEASE FROM BSE-SOFIA

In connection with the launching of a new subsection “Best practices in information disclosure” at the BSE-Sofia web site

As of 17 September 2009, the subsection “Best practices in information disclosure” of the “Information disclosure” section at the BSE-Sofia web site, is available in English. The new subsection aims to summarize the best practices of the Bulgarian public companies in relation to information disclosure. In the section the companies can also find information about the main principles, stated in the Bulgarian National Code for Corporate Governance, as well as information about the recommendations of the Exchange concerning the information disclosure by the public companies.

The subsection is divided into three main parts:

1. National Code for Corporate Governance - drafting, main goals, scope and main principles;
2. Best practices with regards to information disclosure - summary of the best practices followed by the public companies concerning the disclosure of information in Bulgaria;
3. Content of the internet sites of the public companies - description of the most common domestic and international practices concerning the content of the corporate internet sites of the public companies.

BSE-Sofia intends to add additional information to the “Best practices in information disclosure” subsection accordingly the needs and recommendations by the issuers. You can send your comments and recommendation concerning the new subsection at the following email: bse@bse-sofia.bg
